2016

Join our Northern Logistics Team, at the **Lac Seul First Nation Event Centre in Frenchmen's Head** to participate in the development of a Cooperative Logistics Framework that will guide the development of the Regional Distribution Centre's Operational Plan to provide optimal solutions for shipping fresh and healthy foods to Ontario's remote communities.

This participatory development approach is to give the communities, businesses and government a part in the development for their benefit in efforts that the Regional Distribution Centre will be more sustainable and successful if all partners and benefactors are engaged in the development process. This will lead to joint decision making about what should be achieved and how. While the primary stakeholders are initiating the process and taking part in the analysis, outsiders are equal partners in the development effort.
